

Kaeluma Marketing & Launch Hub

Mission: Launch Kaeluma to 1,000 families by the end of June 2026 using zero paid budget, pay-what-you-can donation support, and video-first authenticity.

Kaeluma turns your family's daily routine into a living RPG — kids earn gold coins and XP for real-life chores, then spend them in a parent-controlled reward shop. Kaeluma is 100% free with no paywalls or advertisements, funded entirely by parent gifts to cover hosting. This marketing hub contains everything you need to leverage your unique resources and launch Kaeluma successfully.

File Index

FILE	WHAT'S INSIDE	READ FIRST?
launch_strategy.md	Master strategy: personas, competitive analysis, value-for-value donation positioning, organic channels, Adobe video production, and the full 4-week timeline	✓ Yes
launch_checklists.md	Day-by-day action checklists focused on Resend workflows, Adobe asset exporting, and organic launches	✓ Yes
social_media_templates.md	30-day content calendar, Adobe Premiere/After Effects script templates, crossover scripts, Reddit templates, and Product Hunt comment copy	Read before posting
email_campaigns.md	Full Resend email sequence map + 9 behavioral email scripts focusing on setup, activation, and strategic donation requests	Read before launch
content_ideas.md	YouTube Shorts & long-form video plan, Premiere & After Effects editing guidelines, blog article pipeline, and a donation-centered media outreach list	Ongoing reference
press_kit.md	Everything a journalist needs to cover Kaeluma — one-liner, founder story with kids' creator credentials, facts, and Adobe asset lists	Send to press contacts
growth_mechanics.md	Organic word-of-mouth loops, PTA sharing, homeschool co-op advocates, and build-in-public flywheels	Read before launch

The 4 Metrics That Matter

Every marketing and product decision should optimize for these four metrics:

1. **Activation Rate** — Did a new family sign up and create at least 1 chore? (Target: $\geq 50\%$)
2. **Day-14 Retention** — Are families still using Kaeluma 2 weeks later? (Target: $\geq 30\%$)
3. **K-Factor (Word-of-Mouth)** — How many new families does each active parent bring in? (Target: ≥ 0.3)

4. **Donation Conversion Rate** — Percent of active parents who make a voluntary tip to support the app.
(Target: ≥ 3%)

TIP

Since Kaeluma has no paywalls or budget, focus entirely on **activation** and **retention**. Happy parents whose mornings are saved are the ones who share the app and donate to cover hosting.

June 2026 At-a-Glance

PERIOD	FOCUS	GOAL
May 26–31	Setup: Social handles, Resend integrations, Adobe asset library, and product demo video.	Everything ready for June 1
June 1–7	Warm Up: Daily Reels/Shorts posting, community warmup, and Amiga community teasers.	200 waitlist signups
June 8–14	Soft Launch: Beta open, Resend sequence validation, and early feedback collection.	100 activated beta users
June 15–21	Launch Week: Product Hunt launch, waitlist email blast, and organic social blitz.	Top 5 PH, 500 signups
June 22–30	Growth & Support: Active referrals, re-engagement emails, and early donation prompts.	1,000 signups, 30+ donors

Our Unfair Advantages

We aren't competing with VC-funded apps on advertising spend. We win through our unique strengths:

1. **True Origin Story:** Built by a developer dad for his own 5-year-old son to end morning routine chaos. It's real, emotional, and highly relatable.

2. **Adobe Suite & Video Production:** A full Adobe subscription combined with professional video editing experience means our TikTok, Reels, and Shorts will look like high-production media assets (custom graphics, After Effects overlays, Premiere pacing).
 3. **Adventures with Amiga Audience:** We have a warm, pre-existing audience of families and kids who already trust our content team. We can tap this pool as an auxiliary booster.
 4. **Pure Gift Economy:** Being 100% free with no ads makes us highly shareable in homeschool, ADHD parent, and teacher circles where paid trackers are heavily criticized.

Core Value Hook

"Every other app blocks your kids' screen time. Kaeluma lets them earn it."

This is the single most powerful sentence we have. It reframes the screen-time conflict into a simple family economy. Use it in all headlines, videos, and emails.
