

Video Production, YouTube Strategy & SEO Content Guide

Adobe Creative Suite Video Production Blueprint

With your full Adobe Creative Suite subscription, you can produce content that stands out from typical parenting videos. Use this editing checklist:

Premiere Pro Workflow

1. **Dynamic Pacing:** Cut out all breathing pauses. Standard vertical pacing is 1.5 to 2.5 seconds per shot. Use quick zoom adjustments (100% to 110%) to highlight key phrases.
2. **Audio Sweetening:**
 - Apply a high-pass filter to voiceovers to clean up low-end noise.
 - Use a clear "pop" or "clink" sound effect at 12dB whenever a mission checkmark appears.
 - Layer quiet, upbeat background music (e.g., Lofi Chill or positive acoustic beats) at -24dB.
3. **Thumbnail Export:** Use Photoshop to export high-contrast thumbnail images. Apply a subtle drop shadow to text and outline children/tablets with a thin glowing border.

After Effects Assets

- **Coin Animation:** Create a reusable template of gold coins dropping down from the top of the frame. Overlay this during "level up" and "reward purchase" moments.
 - **Text Presets:** Build a kinetic typography preset with a bounce expression for text captions to increase viewer watch time.
 - **Color Grade:** Apply a LUT that brightens warm tones (gold/orange) and deepens dark navy backgrounds to match Kaeluma's color scheme.
-

YouTube Channel Organic Strategy

The *Adventures with Amiga* channel is a secondary asset. We will use it to capture organic traffic without distracting from our core product launch.

1. Long-Form YouTube Concepts (16:9 Aspect Ratio)

- **Concept 1: "We Gamified Our Home for 30 Days. Here is What Happened." (Case Study)**
 - **Structure:** Open with the chaos of morning routines. Show the setup process of Kaeluma. Track daily progress (Day 1 excitement, Day 7 routine slump, Day 14 habits formed). Reveal the final results (no nagging, child managing screen time independently).
 - **Tone:** Sincere, documentary-style, parent-focused.
- **Concept 2: "Screen Time vs. Chores: Building a Balanced Family Economy" (Tutorial)**
 - **Structure:** Discuss the psychological impact of blocking screens versus setting up an earned economy. Walk through Kaeluma's Parent Reward Shop. Show how to price rewards relative to task difficulty.
 - **Tone:** Educational, systems-oriented.

2. YouTube Shorts / TikTok Content Strategy

- **Format:** 9:16 vertical, 15-45 seconds long.
- **Production:** Edit in Premiere Pro, using dynamic After Effects text animations.
- **Topics:**
 - "How to teach kids budget basics without allowances."
 - "The 2-second trick to get kids to brush their teeth."
 - "Why visual checklists fail ADHD children."

3. Channel Link Optimization

Add this standard footer description template to the **top 10 most popular videos** on your channel:

☀ Morning routine battles? We built a free, ad-free app to turn chores into real-life quests.
👉 Start your family guild today: <https://kaeluma.com>
(Supported entirely by voluntary parent donations. No subscriptions!)

SEO Article Pipeline

Our SEO approach uses Kaeluma's **free, ad-free** nature as a keyword anchor, targeting parents who are tired of paywalls and subscriptions.

Target Keywords (Zero-Budget Focus)

KEYWORD	MONTHLY SEARCHES	DIFFICULTY	PRIORITY	KAELUMA POSITIONING
best free chore app	800/mo	Low	● High	Position Kaeluma as the #1 free, ad-free choice.
gamified chore app	1,200/mo	Low	● High	Highlight our RPG level mechanics.
free adhd routine chart	900/mo	Low	● Medium	Focus on dopamine loop reinforcement.
chore chart that works	3,400/mo	Medium	● Medium	Compare static charts with dynamic coin loops.
visual schedule free print	4,500/mo	Medium	● Low	Offer a free printable list that links to our digital dashboard.

Blog Article Outlines

Article 1: "Best Free Chore Apps for Kids in 2026: No Paywalls, No Ads"

- **Goal:** Target high-intent parents looking for free tools.
- **Outline:**
 1. The problem: Great chore apps locking core features (like multiple kids) behind subscriptions.
 2. Objective reviews of popular apps.
 3. Kaeluma review: Explain why it is free, how the donation model works, and why we don't track kids' data.
 4. Comparison table emphasizing value-for-value.

Article 2: "ADHD Visual Routines: Why Immediate Dopamine Trumps Sticker Charts"

- **Goal:** Position Kaeluma as the ideal option for neurodivergent households.
- **Outline:**
 1. How executive dysfunction affects morning routines.
 2. The science of delayed vs. immediate rewards.
 3. Why a standard chart loses its novelty in 5 days.
 4. Setting up a visual game loop: coin clinks, XP tracking, and level unlocks in Kaeluma.

Media & Press Outreach List

We will pitch Kaeluma as a **family-funded public utility** built by a seasoned kids' content creator.

MEDIA OUTLET	PITCH FOCUS	TARGET CONTACT
Parenting Tech Blogs (e.g., Fatherly, Romper)	"Screen Time Economy: The Pay-What-You-Can App Ending Morning Arguments"	Site editors
Local News / Human Interest	"Local Kids' Media Creator Builds Free App for Families"	Local news desk
ADHD / Parenting Podcasts	"Gamifying Routines for Neurodivergent Children"	Podcast hosts

Subject: Kids' media creator builds free app to end morning routine battles

Hi [Editor Name],

I'm Jayson, a developer, father, and the creator behind the children's YouTube show "Adventures with Amiga."

Like many parents, I spent years nagging my 5-year-old to brush his teeth and put on his shoes every morning.

The app worked so well for our family that I decided to make it 100% free with no ads, paywalls, or subscriptions.

I'm launching Kaeluma publicly on June 17, and I believe this story of community-funded parenting tech would be a great fit for your outlet.

Are you open to a short interview or email discussion?
