Empower Families to Turn Routines into Adventures

Welcome to the Kaeluma community outreach toolkit! Because Kaeluma is **100% free, ad-free, and subscription-free**, we grow exclusively through word-of-mouth recommendations from parent to parent.

This kit provides ready-to-use copy templates, social post scripts, and communication outlines to help you share Kaeluma with friends, family circles, class groups, or community boards.

1. Quick Chat Templates (WhatsApp / SMS / Slack)

Copy and paste these quick snippets to share Kaeluma in your local parent groups.

Option A: The "Morning Autonomy" Hook (Recommended)

Hey everyone! I wanted to share a free tool that has saved our mornings. If you're tired of nagging your kids to brush their teeth or do their chores, check out Kaeluma (https://kaeluma.com?utm_source=parent_kit&utm_medium=whatsapp). It's styled like a video game console, so kids choose their own quests, level up, and earn custom rewards. It's completely free, has zero ads, and was built by a dad to help families like ours. Highly recommend giving it a look! 🌟

Option B: The "Sticker Chart Alternative" Hook

If anyone is looking for a digital alternative to paper chore charts, check out Kaeluma (https://kaeluma.com?utm_source=parent_kit&utm_medium=whatsapp). Our kids love earning coins to redeem in our family's custom Reward Shop (we set rewards like "30 Mins Screen Time" or "Friday Pizza Night"). It's ad-free, respects privacy, and actually gets them excited to complete their daily routines. 🌟

2. Email Template

A friendly, personal email script to send to friends or parenting blogs.

Subject: Tired of morning nagging? You've got to try this free app (no ads!)

Hi [Friend's Name],

I hope you're doing well!

I wanted to send you a quick note about an app we've been using recently that has made a huge difference in our daily family routines. It's called **Kaeluma** (https://kaeluma.com?utm_source=parent_kit&utm_medium=email).

If your house is anything like ours, getting the kids to brush their teeth, pack their bags, or clean their rooms usually involves nagging them five times.

Kaeluma turns these household routines into gaming "Quests." Kids get to choose their quests from their own dashboard, earn gold coins, and redeem them in a custom Reward Shop that you configure (e.g. for screen time, sleepovers, or special treats).

Here is why I felt good recommending it to you:

- **100% Free:** There are no hidden subscription paywalls or premium features.
- **Ad-Free:** No predatory advertising banners or targeted trackers.
- **Sleek Design:** Kids actually want to use it because it feels like a gaming dashboard, not a childish cartoon app.

Let me know if you end up trying it out! Our kids are already leveling up, and our mornings have never been quieter.

Best,

[Your Name]
