

Email Marketing & Onboarding Journeys (Resend & React Email)

Tooling: This playbook is configured for **Resend** (using React Email components or standard HTML templates).

Voice: Founder-to-parent. Warm, authentic, helpful, and completely ad-free.

Developer Integration Files

To help you implement this playbook quickly, we have provided two code templates in the repository:

1. [BaseTemplate.jsx](#): A reusable, responsive React Email component matching Kaeluma's navy/purple/gold theme.
2. [resend_helper.js](#): A Next.js Server Action helper script to initialize Resend, construct HTML email bodies, and process Stripe checkout webhooks to trigger email delivery automatically.

<h2>Today's the day. 🌟</h2>

<p>Hi {{parentName}},</p>

<p>I'm writing this at 5:00 AM because I genuinely can't sleep. <strong>Kaeluma is officially live.</strong></p>

<p>After months of building, testing with my own kids, and refining every coin clink and level-up animation – the gamified chore chart is here.

<p><strong>And it's 100% free. No ads. No subscriptions. No catch.</strong></p>

<h3>🎉 I need one favor today</h3>

<p>We just launched on <strong>Product Hunt</strong> and your upvote would mean the world. A top finish gets Kaeluma in front of millions of parents.

<h3>🙏 Help us reach more families</h3>

<p>If Kaeluma sounds like something your friends, school group, or parenting community would love, I'd be incredibly grateful if you could help us spread the word.

<ul>
  <li><strong>Forward this email</strong> to a parent who fights the morning routine battle</li>
  <li><strong>Share on social</strong>: "We just replaced our sticker chart with @KaelumApp – it's free, ad-free, and our kids love it!"</li>
  <li><strong>Drop it in your parent group chat</strong> – WhatsApp, Slack, Facebook Group, whatever works</li>
</ul>

<p>Every single share matters. We have zero marketing budget – just one dad, a dream, and families like yours spreading the word.

<p>Thank you for being part of this from the beginning.<br>
